

CHILD SAFE STANDARDS POLICY

Ratified by School Council: June 2020
Review: June 2021

Rationale:

Mt Dandenong Primary School is committed to safety and wellbeing of all children and young people. This will be the primary focus of our care and decision-making. Mt Dandenong Primary School has zero tolerance for child abuse and is committed to providing a child safe environment where children and young people are safe and feel safe, and their voices are heard about decisions that affect their lives. Particular attention will be paid to the cultural safety of Aboriginal and Torres Strait Islander children and children from culturally and/or linguistically diverse backgrounds, as well as the safety of children with a disability. Every person involved in Mt Dandenong Primary School has a responsibility to understand the important and specific role he/she plays individually and collectively to ensure that the wellbeing and safety of all children and young people is at the forefront of all they do and every decision they make.

This policy outlines how we create and will maintain a Child Safe school environment (this includes on school premises, camps, excursions, online and other school events). It addresses each of the seven standards outlined by the Victorian Regulation and Qualifications Authority as being integral to maintaining a culture of safety for children.

Definition:

Child abuse can be defined as an act by parents or caregivers, which endangers a child, or young person's physical or emotional health or development. Child abuse can be a single incident, but usually takes place over time. In Victoria, under the Children Youth and Families Act 2005 a child or young person is a person under eighteen years of age. Child abuse can occur in the following ways:

- **Physical abuse** occurs when a child suffers or is likely to suffer significant harm from an injury inflicted by a child's parent or caregiver. The injury may be inflicted intentionally or may be the inadvertent consequence of physical punishment or physically aggressive treatment of a child. The injury may take the form of bruises, cuts, burns or fractures
- **Sexual abuse** occurs when a person uses power or authority over a child to involve the child in sexual activity and the child's parent or caregiver has not protected the child. Physical force is sometimes involved
- **Emotional Abuse** occurs when a child's parent or caregiver repeatedly rejects the child or uses threats to frighten the child. This may involve name calling, put downs or continual coldness from the parent or caregiver, to the extent that it significantly damages the child's physical, social, intellectual or emotional development
- **Neglect** is the failure to provide the child with the necessities of life such as food, clothing, shelter, medical attention or supervision, to the extent that the child's health and development is, or is likely to be, significantly harmed. (Source: Department of Health and Human Services).
